much needed earnings."

To Build Fire Station

Plans are underway to construct
a fire station to house the town's
fire fighting equipment between
Gilmore's garage and the Western
Auto store on King street.

Eno Chevrolet Company, where
the equipment is now housed, has
requested the town to move the
truck as soon as possible. The
Chevrolet garage needs the space
taken up by the truck for the
erection of new equipment expect-
ed to arrive in a short time.

The fire truck and other equip-
ment has ben kept in the Chev-
rolet garage since the organiza-
tion of the fire company.
